PEUGEOT **PARTNER**

PRICES - EQUIPMENT - TECHNICAL SPECIFICATIONS

Effective from 15th April 2024
2024 Model Year (K9) | Version 1.0

LET'S BEGIN

PEUGEOT PARTNER

New PEUGEOT PARTNER features a renewed design, improved efficiency, the latest-generation connectivity and more sophisticated driving aids.

It also retains the robustness, versatility and driving dynamics that have made it such a success with professionals. Within the interior, the driving position has been extensively redesigned for greater comfort, ergonomics and practicality. The dashboard and steering wheel have also been redesigned, while the digital instrument cluster and the large central 10-inch touchscreen make the interface between driver and vehicle an enjoyable and efficient one.

PEUGEOT PARTNER PANEL VAN

New PEUGEOT PARTNER Panel Van is available in a number of versions: Standard (4.4m) or Long (4.75m) panel van, and two trim levels: Professional and Asphalt.

NEW E-PARTNER

PEUGEOT PARTNER | STANDARD EQUIPMENT BY EDITION

PANEL VAN **PROFESSIONAL**

COMFORT AND CONVENIENCE

- Manual parking brake
- 6-way Driver's Seat (Reach/Rake/Height) & Lumbar
- 4-way Passenger Seat (Reach/Rake). Adjustable headrest

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local Peugeot Retailership for the most up-to-date prices and specification details for all models. CO2 figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the

certified CO2 emission output. * Asphalt versions benefit from the Multi-flex modular folding Passenger bench seat which provides an additional load length of 1273mm and increases the load volume by 0.5m3. ** WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other vans tested to the same technical standard. The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted

(pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures. † All Manufacturer's Recommended Basic Prices are exclusive of V.A.T., Delivery to Retailer and Number Plates, Government First Registration Fee and Vehicle Excise Duty. ^ The Government PiVG is worked out at 35% of the Base Vehicle Price (incl. VAT) and including any discounts applied up to a maximum of £2,500.

ADBLUE TANK CAPACITY LITRES (GALLONS)

17 (3.7)

*Replacing the traditional lever, the Automatic transmission selection-mode dial/drive wheel is an innovative solution that is both elegant and intuitive. By simply twisting the dial, the following modes can be selected:

- Park, for when the vehicle is stationary and the wheels are locked
- Drive, for Automatic forward motion
- Neutral, for when the vehicle is stationary, wheels are free
- Reverse, for Automatic backward motion

For an extra experience of dynamism, the shift paddles for Automatic transmissions are located behind the steering wheel, offering drivers an extra level of control that is highly ergonomic and intuitive. The shift paddles function in the following way:

- To go up a gear, the driver must pull the right lever towards themselves
- To go down a gear, the driver must pull the left lever towards themselves

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local Peugeot Retailership for the most up-to-date prices and specification details for all models. CO2 figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the

certified CO2 emission output. * Asphalt versions benefit from the Multi-flex modular folding Passenger bench seat which provides an additional load length of 1273mm and increases the load volume by 0.5m3. ** WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other vans tested to the same technical standard. The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted

(pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures. † All Manufacturer's Recommended Basic Prices are exclusive of V.A.T., Delivery to Retailer and Number Plates, Government First Registration Fee and Vehicle Excise Duty. ^ The Government PiVG is worked out at 35% of the Base Vehicle Price (incl. VAT) and including any discounts applied up to a maximum of £2,500.
